

THURS JULY 12

WORKPLACE MEDIATION CPD

Working with the Dual-Client Relationship in Workplace Mediation

One of the unique aspects of workplace mediation is the involvement of a third party. This is the organisation or their representative, often HR. These unique issues and challenges for mediators will be addressed in this interactive CPD workshop.

- Managing expectations around the aims & outcomes
- Assessing suitability of issues and parties to mediation
- When 'voluntary' is in name only
- Power relations inside and outside the mediation room

Materials, attendance certificate, and refreshments included. Lunch not included. CPD is a requirement for CMC Registered Mediators.
